CALIFONE®

THE SIGHTS & SOUNDS OF EDUCATION

Discovery™ Stereo Binaural Headset

Model DS-8V

This professional-grade headset is designed for heavy-duty use in K-12 and college classrooms and labs. Discovery headsets are ideal for reading, science, math and language learning uses and are compatible with CD/DVD players, TVs, tape players, and most computers.

Its built-in noise cancelling electret microphone is designed for use with voice recognition programs. Added comfort by extra deep (noise cancelling) earcup cavities with a convenient volume control located on the right. The flexible comfort sling contours to the user's head for better weight distribution and balance.

The replaceable 6' cord withstands 250,000 flexes, and with a cord change, enables the same headset to operate in either stereo or mono modes for added flexibility. This also allows minor repairs to be made without purchasing a new headset body. Replaceable, easy-to-clean vinyl ear cushions are hypo-allergenic, no latex.

1. Rugged plastic headstrap with recessed wiring for safety
2. Fully adjustable headband & comfort sling fits all sizes
3. Noise-reducing earcups decrease external ambient noise
4. Replaceable 6' straight cord with 3.5mm mini plugs
5. Noise cancelling electret mic reduces accidental recording of unintended sounds on hinged boom
6. Volume control conveniently located on ear cup
7. Replaceable hypo-allergenic (no latex) ear cushions

"Project Intercept"
Please contact us immediately if you experience any issues with your headset. Our "Project Intercept" customer service program will quickly repair or replace items under warranty. Simply contact us via phone or email warranty@califone.com.
